

SIDE EVENT TO THE 9TH CONFERENCE OF STATES PARTIES TO THE ARMS TRADE TREATY

Everything You Need to Know about ATT Reporting

This clinic aims to offer guidance and insights on how to successfully fulfill ATT reporting requirements. Participants will learn about the benefits of reporting, how to complete initial and annual reports, and how to overcome reporting challenges. Additionally, the clinic will highlight available resources and support opportunities to assist states in successfully completing initial and annual reporting.

Facilitated by leading experts on ATT national reporting, participants will be guided through the reporting obligations and key elements of the reporting template. This will be an interactive session with time for participants to ask questions. The clinic is for those ATT States Parties that have not yet reported, and will also be useful for those states working towards joining the ATT that wish to understand more about ATT reporting obligations.

**TUESDAY
22 AUGUST 2023**

9:00 – 9:50 AM CEST
