One of the central requirements of the ATT is that each State Party establishes a national control system to implement the Treaty, including the regulation of the international transfer of conventional arms, related ammunition/munitions, and their parts and components. This clinic will provide an opportunity to learn from ATT States Parties that have established national control systems, to better understand what the key elements of such a system are as well as the associated challenges and benefits.

PANELISTS
Atty. Teklo Maxwell Grigsby  
Former Head of the Liberian National Commission on Small Arms

Aureliana Neacsu  
Conventional Arms Unit, Department for Export Controls, Ministry of Foreign Affairs of Romania

MODERATOR
Roy Isbister  
Saferworld

To be held at:
Control Arms  
The Humanitarian Hub  
5th Floor  
La Voie-Creuse 16, Geneva

Coffee and croissants will be served at 9:00am.

R.S.V.P. by 5:00pm, Monday 21 August 2023
