GOOD PRACTICE GUIDE ON POST-SHIPMENT ON-SITE INSPECTIONS OF MILITARY MATERIEL

AND REARDOARDO VARISCO AND MARK EROBLET®

INTRODUCTION

Poss-dispeters on-she inspections are physical inspections of military reasorial conducted by the exporting state on the servicery of the importing state. They are one of a range of measures that exporting states can adopt to try is present the diversion of exported military material by ensuring the assurances provided by the importing state relating to the authorized and user and end use of the military material are uphold.

The Orized Status started its first end-use mentioning programme and associated system of post-shipment on-site impactions in 2000, Other status have also conducted post-oblgment on-site inspections or have introduced measures that allow for them to take place. They include Balgaria, Ceechin, Germany, Latvia, Poland, Bornanta, Slovakia, South Africa, Spain, Sweden and Switzerland," In addition, several enabligated intercentration have produced guidance documents on arms export controls that include provisions relevant to requiring or conducting on-site impections, such as templates for and-user certificates (HDCs) or lass of elements that they should contain." Post-shipment on-aits inspections have also become an important topic of discussion in multilatural forums and are one of the muin focuses of the German presidency of the Highth Conference of States Parties 8289 to the Arms Trade Treaty (ATC), which is scheduled to take place on 22-26 August
