Date: 4 February
Time: 13:15-14:45
Venue: Palais des Nations, Kazakh Room (Cinema, room XIV),
1st floor A-building

The Permanent Missions of Sweden and El Salvador to the United Nations Office and other international organizations in Geneva and Humanium Metal by IM Swedish Development Partner invite you to an inter-active panel discussion exploring the disarmament development nexus. What are the linkages between disarmament and development? How can we work together to promote the sustainable goals? What role can young people play?

This side-event aims to embed disarmament of small arms and light weapons into Agenda 2030 and explore the disarmament development nexus with a specific focus on the role of youth. The session will showcase approaches and methods to disarmament for development that are tangible and hands-on and inspire cross-learning between speakers and participants.
